Internet Safety Presentation
Helping children stay safe online

Young people today are immersed in digital technologies. They use the internet and mobile phones to socialise, study, exchange ideas and play. While online activity has many benefits, there are also risks.

To help your children stay safe online, Terrigal Public School is hosting a Cybersmart Outreach—Internet Safety Awareness presentation.

Designed for parents, teachers and students, this presentation is provided by the Australian Communications and Media Authority (the ACMA) as part of a national program of cybersmart initiatives.

The Cybersmart Outreach—Internet Safety Awareness presentation is thorough and non-technical. It covers a range of issues including:

- the ways children use the internet and emerging technologies
- potential risks for children online, such as cyberbullying, identity theft, inappropriate contact and exposure to inappropriate content
- tips to help children stay safe online.

The presentation is conducted by an ACMA Cybersmart trainer and is free of charge.

Terrigal Public School is committed to helping students develop appropriate behaviours when using digital technologies, both at school and home.

The Cybersmart Outreach—Internet Safety Awareness presentation will be held on:

**Tuesday 29th May**
Year 5 & 6 students – 1.30 p.m.
Teachers – 3 p.m.
Parents – 7 p.m.

To register your attendance, please complete the attached form and return it to your child’s classroom teacher on, or before, Thursday 24th May.
